

## Converting

## GIKO Verpackungen GmbH A – Weiler (Vorarlberg)

Industry: Converting/Packaging Industry

Product: Cuttopress CP-6000

### The Company

GIKO Verpackungen GmbH is one of the leading companies in the Austrian Packaging Market. At their slitters they wanted to install cutting units to extract the trims with a maximum speed of 600m/min. For a further increase and a higher efficiency they decided to invest in a modern waste handling system.

### The Task

Higher outputs, 24/7 runs without stops and a clean production site because of food packaging were the main requirements.

## The Solution

- Central waste handling system Cuttopress CP-6000
- 4x Cuttopipe GR-160 for extraction of edge trims up to 600m/min.
- Outside solution: Press station with a connected container
- Special *options*:
  - ✓ Matho OnlineConnect
  - ✓ Matho PowerControlEco
  - ✓ Matho AntiStatic 1000
  - ✓ Matho SoundBox
  - ✓ Matho Jumbo710
  - ✓ Matho AirReturnStandard
  - ✓ Matho ChangeOver.

## The Results

- 30% higher output
- No additional stops regarding the waste
- Clean production environment
- Higher production speed
